VS.

COMPLAINT AND AFFIDAVIT

KENTUCKY POWER CO.,  
1701 Central Ave.  
Ashland, Ky. 41101

DEFENDANT.

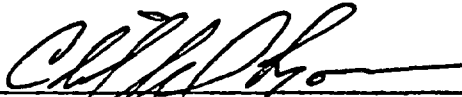

Comes now the Affiant/Complainant, Clifford Lyons, first being duly sworn, and states and deposes as follows:

1. That on or about Friday, September 3, 1982, without prior notice to me, agents or servants of the power company trespassed upon my property (this activity is not within the normal utility easement) and removed my electricity power meter and altered the wiring therein and shut the power off.
2. That both my attorney and I have made repeated demands to the power company to restore the power. They refuse to do so.
3. That due to a short in the circuits in my house on my side of the meter, I had jumpered the two contacts on my meter to read continuity throughout my house. When I was through, I disconnected the jumper from one of the contacts and it was never reattached to any other post. I then put the meter back.
3. The power company then, on their own without any probable cause, accused me of stealing electricity which can not be done with one jumper, and is in fact false.

4. That because of their monopoly I am not able to receive electricity power to my home. I have two children going to school and they have not been able to have decent meals or other necessities provided by electricity.

5. All the other acts of the power company were illegal and in violation of the Public Service Commission.

WHEREFORE, the Complainant asks that the Public Service Commission enter an immediate order directing them to restore electric power to my residence, for a hearing, for damages, and for this matter to be placed in their permanent record and be considered at the next rate hearing.
